

## Introducing the Clarity Care Account

### Provide Clients a Way to Provide COVID-19 Disaster Relief

At Clarity Benefit Solutions, we know the COVID-19 pandemic is putting tremendous pressure on people, families, businesses, and the economy at large. And, we know you and the clients you support are looking for ways to help employees through crisis – via paid time off, financial assistance or other types of programs.

That is why we are introducing the Clarity Care Account. With this account, you can now offer your clients the ability to provide financial support during the COVID-19 pandemic to employees under Section-139 of the IRS code.

### Your Clients Decide the Type of Relief to Provide:

- Supplement employees' healthcare costs using their current HSA or FSA Clarity Benefit Card
- Help pay for medical expenses for furloughed employees
- Cover healthcare and non-healthcare costs (work-from-home office supplies, cell phone, education activities for children, and other necessities) using a pre-funded debit card

### Plus, Clients Can Also:

- Decide the amount to contribute
- Control how funds are spent
- Preserve unspent dollars
- Safeguard already-stretched internal resources

Please call your Dedicated Customer Relationship Manager to find out how to start offering this essential benefit to your clients today!

You can also visit our [Clarity Care Account](#) page for more information.

As always, thank you for giving us the opportunity to be your benefits provider. In these uncertain times we hope to provide you with the Clarity you need.

Thank you,  
Bill Catuzzi
