

Dear Valued Participant:

We have exciting news regarding the Coronavirus Aid, Relief, and Economic Security (CARES) Act that Congress passed by Congress on March 27, 2020.

As you recall, this act means two very beneficial changes for those with a Clarity FSA:

- 1. **Over-the-Counter (OTC) medications are now FSA-eligible.** OTC medicines like Tylenol®, Zyrtec® and more will now be available for purchase with an FSA without a prescription.
- 2. **Menstrual care products are now FSA-eligible.** Menstrual care products, such as tampons and pads, are now considered qualified health expenses with your FSA.

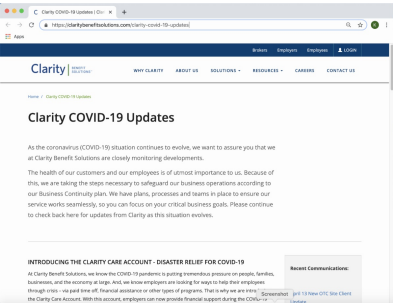

OTC Products Now Available on FSA Store

We are happy to share with you that our partners at FSA Store have updated their site to accept FSA cards for the newly added OTC products. This means it is now possible for you to search for eligible OTC products and purchase these products online using your Clarity FSA. To learn more simply visit the [FSA OTC Page](#).

Please Note: SKUs for the additional 17,000 products are being added daily. FSA Store plans to have all SKUs updated by the first of May.

A promotional graphic for FSA Store. It has a dark blue background with white and yellow text. The main headline is "Don't know what to use your FSA money on?". Below this, it asks "Did you know you could use your FSA to save money on everyday health essentials like baby health items, health tools & pain relief products and more?" and "Use your FSA funds or risk forfeiting your money." There are six circular icons representing different FSA categories: Prescription, OTC, Health Care, Learning Center, and Use your FSA Card. At the bottom, it says "Visit FSAstore.com for the largest selection of guaranteed FSA-eligible products with zero guesswork. Get \$5 off with code: FSA5OFF. One use per customer." The FSA Store logo and tagline "Everything Flex Spending" are at the bottom.
