

Dear Valued Participant:

We have exciting news regarding the Coronavirus Aid, Relief, and Economic Security (CARES) Act that Congress passed by Congress on March 27, 2020.

This act means two very beneficial changes for those with a Clarity HSA:

1. **Over-the-Counter (OTC) medications are now HSA-eligible.** *OTC medicines like Tylenol®, Zyrtec® and more will now be available for purchase with a HSA without a prescription.*
2. **Menstrual care products are now HSA-eligible.** *Menstrual care products, such as tampons and pads, are now considered qualified health expenses with your HSA.*

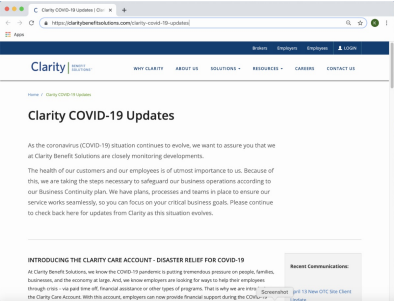

OTC Products Now Available on HSA Store

We are happy to share with you that our partners at HSA Store have updated their site to accept HSA cards for the newly added OTC products. This means it is now possible for you to search for eligible OTC products and purchase these products online using your Clarity HSA. To learn more simply visit the [HSA OTC Page](#).

Please Note: SKUs for the additional 17,000 products are being added daily. HSA Store plans to have all SKUs updated by the first of May.

A vertical promotional graphic for HSA Store. At the top, it says 'Don't know what to use your HSA money on?' in white and green text on a blue background. Below this is a smaller question: 'Did you know you could use your HSA to save money on everyday health essentials like baby health items, health trackers, pain relief products and more?' There are five circular icons representing different product categories: Prescription and Over-the-Counter, Health Insurance, Health Savings Accounts, Health Savings Accounts, and Health Savings Accounts. At the bottom, it says 'Visit HSAstore.com/PlanCBS for the largest selection of guaranteed HSA-eligible products with zero guesswork. Our 24/7 helpline, 1-800-833-0000, our support center.' The HSA Store logo and tagline 'Health Saving. Simplified.' are at the very bottom.
